

# NOTICE OF STUDY COMMENCEMENT REPLACEMENT OF THE EXISTING WATER STORAGE FACILITY

The Town of Aylmer has identified that the existing Aylmer Water Storage Facility (Standpipe) does not meet storage requirements as recommended by MECP Guidelines. The Town has retained Cyril J. Demeyere Limited (CJDL) to complete a Class Environmental Assessment (EA) Study to evaluate replacement options for the existing Standpipe located at 23 Myrtle Street, Aylmer ON. The Class EA Study will identify the preferred method of water storage to meet the Town's demands.

The Replacement of the Existing Water Storage Facility Class EA Study is being completed with the appropriate steps outlined in Schedule B of the Municipal Class Environmental Assessment (MCEA) (2000, as amended in 2007, 2011 & 2015).

Upon completion of the study, a Project File Report (PFR) documenting the process will be available for public comment for a period of at least 30 calendar days.

## PUBLIC CONSULTATION

A key component of the study will be consultation with interested stakeholders (public and agencies) as well as Indigenous communities. Public input and comment are invited for incorporation into the planning and design of this project. Anyone with interest in the project has the opportunity to provide input. A Public Information Centre (PIC) (or virtual equivalent, if required) is planned for Spring 2022 to present the problem/opportunity statement, alternative solutions, and to gather public input on the project. Notification for the date, location, and time of the upcoming Public Information Centre will be posted on the Town's website and will be published in the Aylmer Express. If you have any accessibility requirements in order to participate in this project, please contact the Project Team as listed below.

Public comments will be maintained on file for use during the Study and may be included in project documentation. Information collected will be used in accordance with the Municipal Freedom of Information and Protection of Privacy Act. With the exception of personal information, all comments will become part of the public record.

For further information on this project or if you wish to be placed on the study's mailing list, please contact either:
