

Elk Street Reconstruction

Vegetation and Tree Removal Notice

To Whom It May Concern,

The Town of Aylmer will soon be starting a road reconstruction project on your street that will require tree removals. This letter provides details about the project and important information on how construction may impact you.

Scope: Tree Removals Including Stump Grinding

Location: Elk Street – Talbot Street East to John Street South

Timing: Tentative Start Date – Week of March 10-14, 2025

What to Expect:

- Work crews will be removing and pruning trees in the Town right-of-way to create space for utilities and road rehabilitation works required for the Elk Street Reconstruction project.
- Tree removals have been minimized to only essential removals that are unavoidable for the future road reconstruction works.
- The trees that require removal are due to the location of the private sanitary or water service to the residences or grading conflicts with the future road infrastructure.

Further construction updates will be provided to residents as the project progresses. Detailed information about the project is also available on the Town project specific website at: <https://aylmer.ca/elk-street-reconstruction/>

The Town thanks you for your patience during this time of exciting transition.
