

2026 Pavement Management Program

Spruce Street West – John St. N to Elm St.

To Whom It May Concern,

The Town of Aylmer will soon be starting a construction project on your street. This letter provides details about the project and important information on how construction may impact you.

Project Details:

Location: Spruce Street West – John St. N to Elm St.

Schedule: Tentative Start Date – May 4, 2026
Anticipated Completion – June 19, 2026

Scope: Milling and Paving of Asphalt Road Surface

Contractor: Associated Paving & Materials Ltd.

Impacts During Construction:

Traffic: Traffic will be reduced at times. A minimum of one lane of flagged traffic will be provided at all times. There will be select periods of time where driveway access may be restricted when the milling or paving operation is adjacent to the driveway. Advance notice will be provided by the contractor, if possible.

Asphalt “Tack Coat”: Tack coat is a thin coat of liquid asphalt that is applied (sprayed) between the new hot mix asphalt and the existing milled surface of the road

OPERATIONS DEPARTMENT

46 Talbot St. W
Aylmer, Ontario, N5H 1J7

to promote bonding. The tack coat is sprayed in front of the paving operation. If driven over, the tack coat can leave a black residue on vehicle tires/sidewalls and driveway surfaces. Please avoid driving on freshly applied tack coat and into private driveways.

Vibration: Construction equipment can cause vibrations. Please ensure you protect any valuables susceptible to damage.

Safety: Stay safe and avoid the work area during construction. Maintain a safe distance from construction vehicles entering and leaving the site.

Contact Information:

If you have any questions about this project, please contact the Town's Project Manager/Inspector.
